- CSS
- JAVASCRIPT
- REACT JS
- NODE JS
- EXPRESS JS
- MYSQL
- GITHUB
- <https://github.com/Rohith198-cmd>

### LANGUAGES

- Tamil
- English

### PROFILE

A passionate and motivated Full Stack Web Development with knowledge in both front-end and back-end technologies. Recently completed full stack web development course with hands-on experience in creating static and dynamic, responsive, and user-friendly web applications. Proficient in core web development technologies such as HTML, CSS, JavaScript, and familiar with front-end frameworks like React and back-end technologies like Node.JS, Express-JS and database MySQL. I am eager to contribute to innovative projects and grow as a Full Stack Web Developer in a dynamic development team.

### PROJECTS

#### PORTFOLIO

<https://rohith198-cmd.github.io/Personal-Portfolio/>

- Developed a fully responsive and interactive personal portfolio website to showcase skills, projects, and experience. The portfolio includes sections for an about me, contact information, and various projects with interactive elements. It demonstrates proficiency in front-end web development, including layout design, animations, and dynamic content manipulation using JavaScript.

#### WEATHER APP

- Developed a weather forecasting web application that fetches real-time weather data using an external API. The app provides users with current weather conditions, forecasts, and other relevant information based on location input. The project demonstrates proficiency in working with APIs, handling asynchronous operations, and creating user-friendly interfaces.

#### BUILD OWN API WITH DATABASE CONNECTION

- Developed a custom Restful API using Node.js and Express.js, integrated with a MySQL database to perform CRUD operations. The API provides endpoints to interact with the database, allowing users to create, read, update, and delete records. This project demonstrates the ability to build a scalable and maintainable backend system, with a focus on database management and API design.
